Intermediary registration

 A screenshot of the 'Intermediary Registration' form. The form is divided into two columns of document upload sections. Each section has a red icon and a message indicating a document is missing. The sections are:

- Intermediary Registration Form***: "You document is missing." (Click here to choose a file)
- SEBI Registration Certificate***: "You document is missing." (Click here to choose a file)
- PAN card***: "You document is missing." (Click here to choose a file)
- GSTIN Certificate***: "You document is missing." (Click here to choose a file)
- Address proof***: "You document is missing." (Click here to choose a file)
- Authorized signatory list***: "You document is missing." (Click here to choose a file)
- Balance sheet***: "You document is missing." (Click here to choose a file)
- GSTN certificate***: "You document is missing." (Click here to choose a file)

 At the bottom, there are 'Back' and 'Forward' buttons.

- Upon receipt of all the mandatory documents along with the Intermediary Registration form, KYC screening team executes the registration process by clicking on **Intermediary Registration** option in <https://kfinkra.in>
- The documents required for Intermediary registration are-
 - Intermediary registration form with terms and conditions.
 - SEBI registration certificate.
 - Copy of PAN card.
 - Address proof.
 - Board resolution.
 - Authorized signatory list.
 - Balance sheet.
 - GSTN certificate
- If there are any missing documents or incomplete information or discrepancies in the information provided, an email to the concerned team members at intermediary will be triggered.
- On receipt of missing information and documentation, registration process gets completed and is approved by the KYC screening team.
- On activation of **POS Code** for the intermediary in KFin KRA, individual emails are sent to **Admin, Compliance and Business In-charge** as provided in the Intermediary Registration Form for User activation.

KFINKRA Intermediary Registration & Next Steps

Getting Started as an Intermediary with KFINKRA!

Dear [REDACTED]

We are pleased to inform you that your intermediary account has been successfully created on KFinKRA.

We thank you for registering with KFINKRA as an intermediary. KFINKRA is committed to providing cutting-edge technology to consumers and organisations, protecting data privacy, and building confidence by upholding the strictest security guidelines and legal requirements, such as the DPDPA.

The goal of KFIN KRA is to streamline and modernise the KYC procedure so that it is quicker, more effective, and available to everyone.

Investor

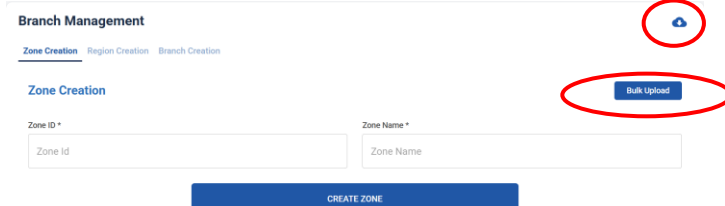

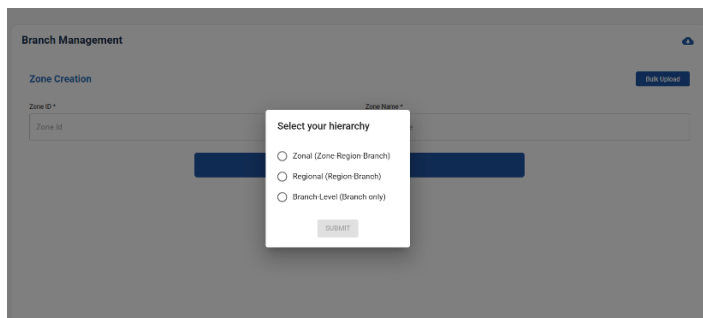

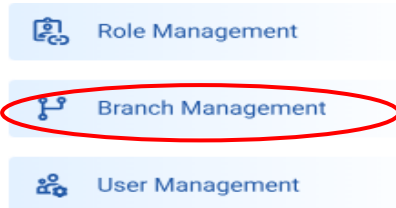

- For Subsequent logins, Intermediary user can use this URL to Login– <https://kfinkra.in>. Click on Login and choose the **Intermediary** option the user will be redirected to the Login Page.

Process flow document

- **User ID, POS Code and Password** are to be entered here.
- Click on **Generate OTP**. An OTP would be sent to both mobile and email id.
- After entering the OTP, the user would be able to login to the account.

Creation of Zones, Regions and Branches

- Click on **Branch Management** tab from the menu to **Create Zone, Region and Branch**
- During your first login as Intermediary admin, you will be prompted to **Select your hierarchy**. This step is mandatory to proceed with the creation of **branches, roles, and users** within the system.
- Intermediary admin can create individual **Zones, Regions, or Branches**, or, if needed, they can create multiple Zones, Regions, or Branches using **Bulk Upload**.
- **Single Zone creation-**
 - Click on **Zone Creation** and enter **Zone id** and **Zone Name** to create the zone.
- **Bulk Zone Creation-**

Process flow document

- The intermediary admin can also choose to create multiple Zones, Regions and Branches in one go by using **Bulk Upload**.
- The button on Top-right corner is used to download reports to understand the existing zones, regions, branches etc.
- Click on **Download Template**, fill all the required details in the sheet and save the file.
- Click on Choose File to upload the file.
- Once the file is uploaded, the entries are validated and can be previewed in **Uploaded Data Preview**.
- If the cross mark appears, hover the mouse around the cross icon to identify the reason for failure of validation. In such cases the admin would have to rectify the error and re-upload the file.
- If tick mark appears for all entries, the Submit button becomes visible, allowing the admin to submit the data and create the zones.
- **Single Zone creation-**
 - Click on **Region Creation** and enter **Zone**, **Region ID** and **Name**.
- **Bulk Zone Creation-**
 - The intermediary admin can also choose to create multiple Regions in one go by using **Bulk Upload**.

Creation and assigning roles

The screenshot shows the 'Role Management' tab selected in the sidebar. The main content area displays two sections: 'Role Creation' and 'Role Management'. The 'Role Creation' section has a text input field labeled 'Enter Role' and a 'Create' button. The 'Role Management' section has a dropdown menu labeled 'Role' with 'API Users' selected, a 'Select Activity' dropdown, and a 'Save' button.

- Once Branch is Created Click on Role Management to Create Role and to Assigning Role Specific Permissions.
- In **Role Creation** tab create new **Role**.
- In **Role Management** tab, select the newly created role from the dropdown list. Assign role-specific permissions in the dropdown list of **Select Activity**.

Creation of users

The screenshot shows the 'User Management' tab selected in the sidebar. The main content area is currently blank, indicating the user creation process.

- Click on the **User Management** tab to create users and assign roles with role-specific permissions.

Update User

- Intermediary admin can create individual **Users**, or, if needed, they can create multiple Users using **Bulk Upload**.
- **Single User creation-**
 - Click on **Create User** tab to enter the details of the user.
- **Bulk Zone Creation-**
 - The intermediary can also choose to create multiple **Users** in one go by using **Bulk Upload**.
- Click on **Edit User** tab to update user details and manage role-specific permissions.
- **Employee id, Name, or User Id** can be used to search for the employee.
- Click on the specific user whose details need to be updated.
- All the necessary details of the user can be updated here.

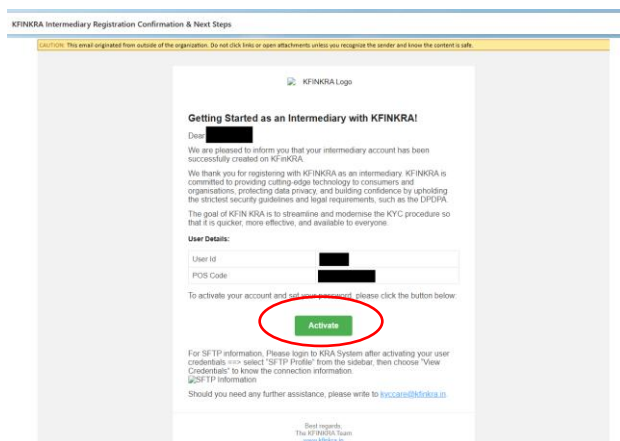

Process flow document

The image shows a 'User Management' interface. At the top, there are three tabs: 'Create User', 'Edit User', and 'Terminate User'. Below the tabs, there is a section for 'User Category' with three radio buttons: 'Employee' (selected), 'MFO User', and 'AMC User'. There is also a 'FinTech User' option. Below this, there are input fields for 'Employee ID', 'Employee Name', and 'User ID'. A 'Search' button is located at the bottom of this section.

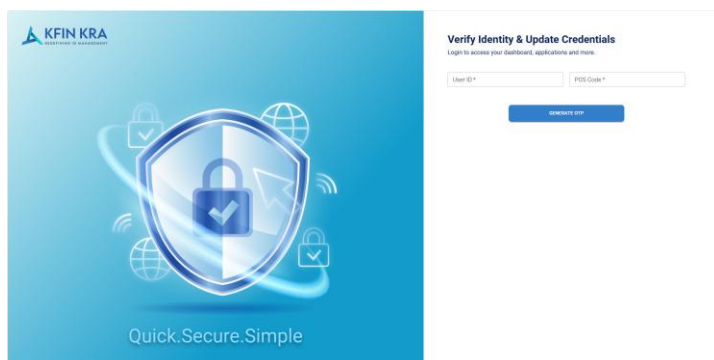

- Click on **Terminate User** to Remove the profile of a user.

Activation of User IDs

The image shows an email titled 'KFINKRA Intermediary Registration Confirmation & Next Steps'. It includes the KFINKRA logo and a 'Getting Started as an Intermediary with KFINKRA!' section. The email body contains a message from the KFINKRA team, thanking the user for registering and providing instructions on how to activate their account. A green 'Activate' button is highlighted with a red circle. Below the button, there is a section for 'User Details' with fields for 'User ID' and 'POS Code'. The email also includes a note about SFTT information and a link to 'kfinkra@kfinkra.in' for further assistance.

- Once the user is created the user will be sent an email with their User ID and POS code to Activate their account. The user can click on **Activate** button to activate their account.

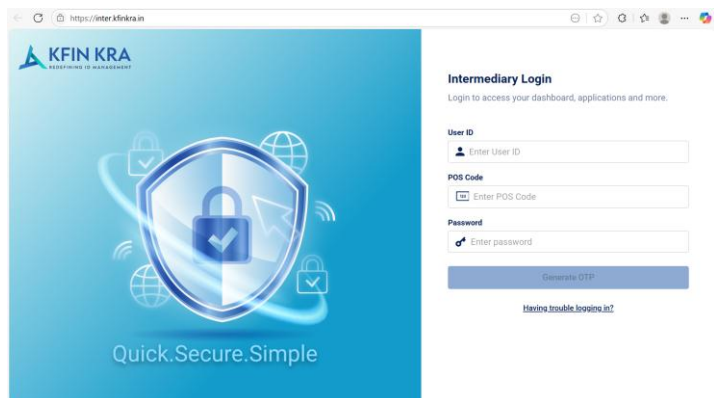

The image shows a login screen for KFINKRA. On the left, there is a blue banner with the KFINKRA logo and the text 'Quick, Secure, Simple'. On the right, there is a 'Verify Identity & Update Credentials' section. It includes a login form with fields for 'User ID' and 'POS Code', and a 'Login' button. Below the login form, there is a link to 'kfinkra.in'.

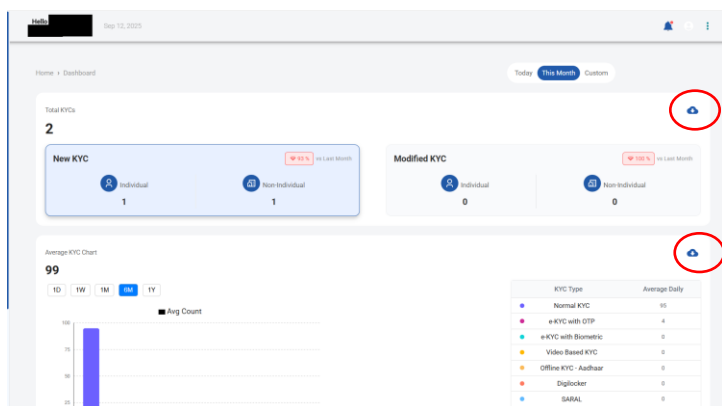

- Once the user clicks the **Activate** button, they will be redirected to KFIN KRA dashboard where they can verify their credentials and set a new password.

Process flow document

Login and Dashboard view

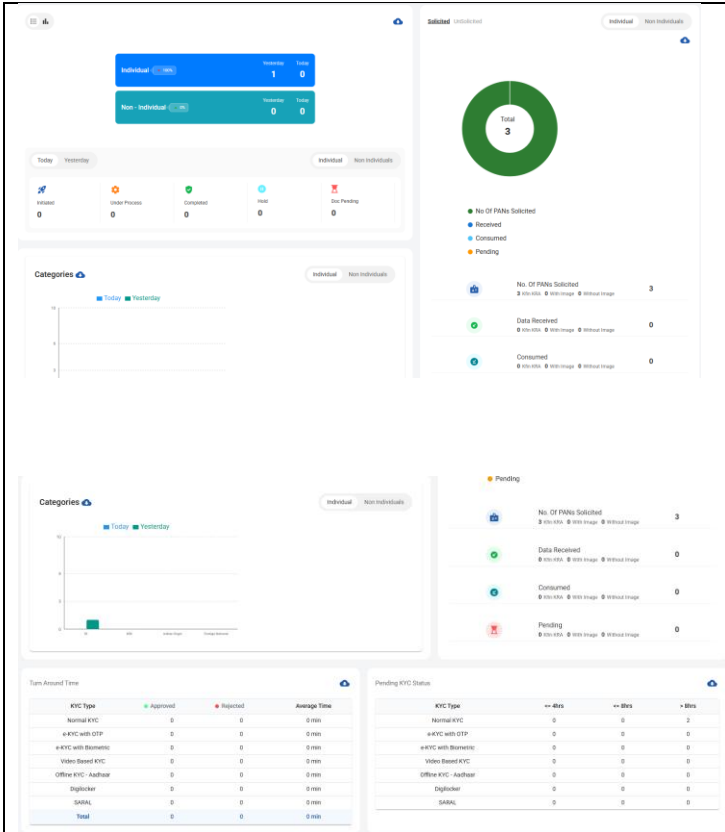

- Intermediary users can use this URL to Login– <https://kfinkra.in>. Click on Login and choose the **Intermediary** option the user will be redirected to the Login Page.
- **User ID, POS Code and Password** are to be entered here.
- Click on **Generate OTP**. An OTP would be sent to both mobile and email id.
- After entering the OTP, the intermediary user would be able to login to the account.

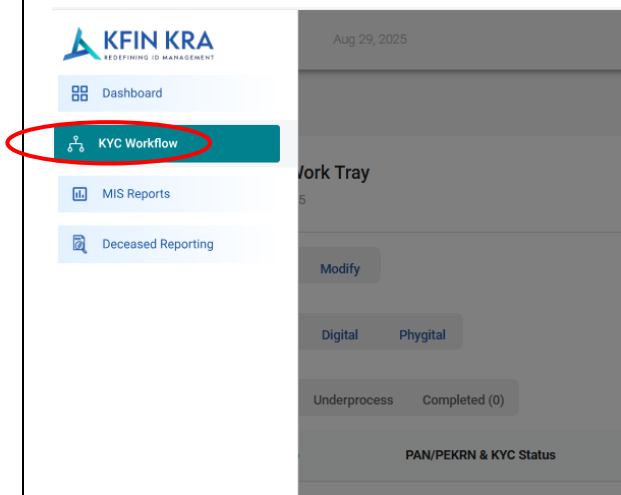

- After logging into the intermediary portal, the dashboard containing the data on the number of New KYCs and Modified KYCs. This data is represented in Bar diagrams and pie chart forms.
- This data can be downloaded in the form of a report by using the button on Top-right corner.

Process flow document

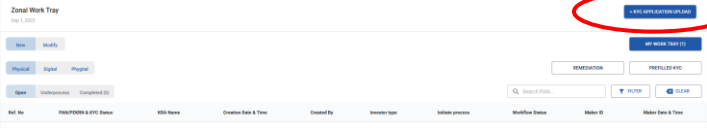

KYC Workflow

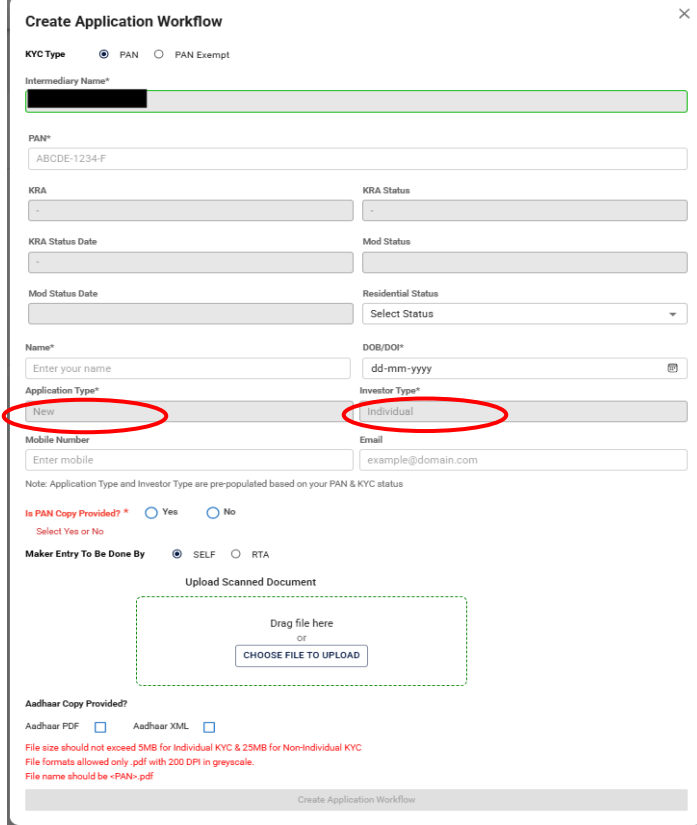

- After logging into KFINKRA system as an Intermediary user, Select the **KYC Workflow option** from the menu for new KYC or KYC modification.

Process flow document

- In the KYC Workflow Module, Click on + KYC Application Upload option to create a new KYC record with KFIN KRA or to modify KYC record with KFIN KRA or other KRAs.

KYC Maker entry - Individual

- In the Application Workflow, for Intermediary Users, the Intermediary name is displayed by default. RTA Users need to select the mutual fund for which the KYC is being processed from the drop-down menu.

PAN Cases-

- Once the PAN is entered, the KFIN KRA system initiates a **PAN based KYC search** with other KRAs and auto populates the Application Type and Investor type.
- Application Type is auto populated as “**New**” if the KYC of the investor is not available in any KRA and auto populated as “**Modify**” if the KYC of the investor is available in any KRA. The system also auto populates the Investor Type as “**Individual**” or “**Non-Individual**” based on the PAN entered.
- In case the KYC record is available in any KRA, it reflects name of KRA with KYC record, status, status date, modification status and modification status date.
- Users should check the KYC status / KYC Modification status while processing modification requests. Modification requests**

Process flow document

are not accepted by KRAs if the KYC status is Under Process or an existing modification request is already raised and is pending for processing.

- In case of Individual investor, details such as PAN, Residential status, Name, Date of Birth are mandatory to be filled. Mobile Number and Email can be entered during data entry stage.
- In case of Non-Individual investor, details such as PAN, Name, Date of Incorporation are mandatory to be filled. Mobile Number and Email can be entered during data entry stage.
- If investor has copy of PAN is provided as part of KYC form uploaded, User shall select PAN Copy Provided flag as **YES**, else **NO**.
- **KYC documents shall be uploaded as a single PDF file. File name shall be <PAN>.pdf. For ex. if the KYC PAN is ABCDE1234F, the PDF file name shall be ABCDE1234F.pdf**
- **Is PAN Copy Provided field:** Click on Yes or No based on whether the PAN Card is attached with KYC form or not.
- **Maker Entry To Be Done By:** Click on Self, if done by the intermediary user or RTA if entry is done by the RTA.
- Upload Scanned PDF of the KYC form along with the OVD documents. The file name should be as per the PAN.
- **Aadhaar Copy Provided:** It is an optional field and the Aadhaar copy can be uploaded in PDF

or XML format and the password must be entered in the space given below.

PAN Exempt cases -

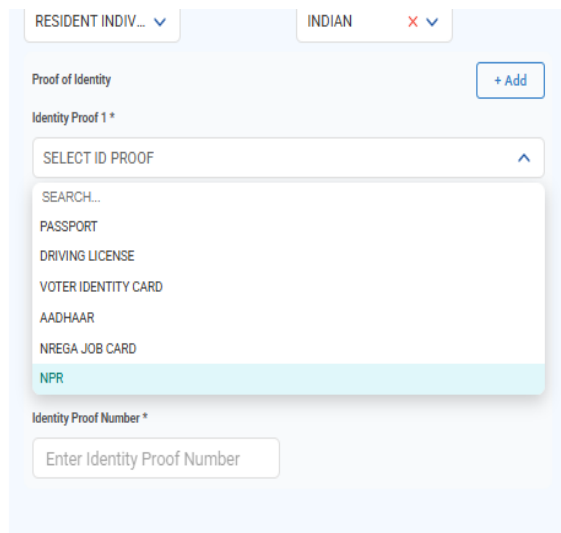

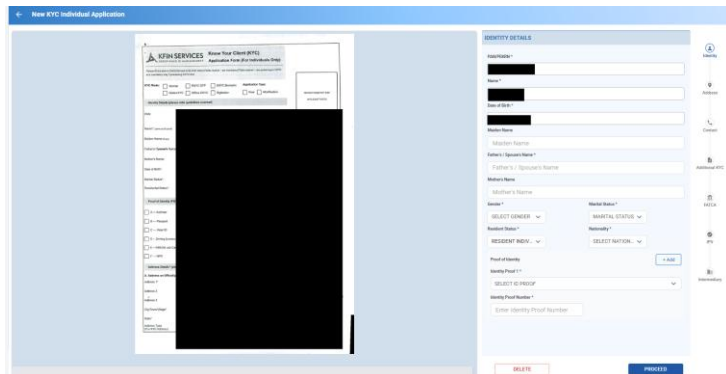

- OVD provided by the investor must be selected from Select OVD list.
- The Category under which the investor belongs to must be selected from **Pan Exempt Category list**.
- **Proof Number** must be mentioned as per selected OVD.
- **Expiry Date** for few Documents has to be entered as per OVD document.
- In case of **Individual investor**, details such as **Name and Date of Birth** are mandatory to be filled. **Mobile Number and Email** can be entered during data entry stage.
- In case of **Non-Individual investor**, details such as **Name and Date of Incorporation** are mandatory to be filled. **Mobile Number and Email** can be entered during data entry stage.
- The **file name of the scanned KYC document to be uploaded should be named as per the proof number** mentioned.
- Ensure file size limits **Maximum 5 MB** for individual KYC documents.
- In case of modification, User can click on **Create Application Workflow** after entering all details are entered and uploading the file.
- The KYC record is fetched from the respective KRA through IOP.

Process flow document

- Workflow is created to capture the investor's KYC information. Intermediary User shall select the record to enter the data as provided in the application form by clicking on the 'Initiate' option in the Work Tray.
- The work tray reflects workflow based on the branch/region /zone level access given to the intermediary user.
- **KRA Response** shows the status of the PAN across various KRAs.
- If a KYC record exists with a particular KRA, the system will indicate "**KYC Available**" next to that KRA. Conversely, if no record is found, it will display "**KYC Not Available**".
- The intermediary user must click on **Proceed** to enter the details of the investor.
- For every KYC, PAN is validated with **Income Tax Department** database.
- KYC is accepted for registration with KFIN KRA only if the PAN is "**Active**" in ITD database, KYC holder name & DOB matches with the Name and DOB in ITD database.
- PAN-Aadhaar seeding status should be "**YES**" for Resident Individuals and is optional for Non-Residents and Foreign Nationals

Process flow document

- If User identifies that the PAN validation with Income Tax Department is not successful or there are any inconsistencies/ discrepancies in the KYC information being processed, User shall select the option “**Mark for Deletion**” to delete the workflow created and create a new workflow with correct information, as required.
- **Identity Details** must be entered by Intermediary User in this tab.
- Intermediary user is required to choose the proof given by the investor as **Proof of Identity (PoI)**.
- Expiry date needs to be entered for Passport and Driving license.

"KYC entry submitted successfully."

OK

- The Intermediary user must enter all the details of the **Related Person** as is done for individual investor's KYC Workflow.
- After the Intermediary user clicks on Submit this tab appears to confirm the entry of KYC record successfully.

Process flow document

MIS Report Generation

- Select **MIS Reports** from the Menu

- The Admins and authorized users can generate and download three reports:
 - Transaction Report
 - MIS Reports
 - Branch Wise Summary Report

The scope of the three reports generated is governed by the **access level** assigned to the user during account creation:

Zonal Access:

- Users with zonal access can generate reports pertaining **only to their designated zone**.

Regional Access:

- Users with regional access can generate reports for their **entire region**, including **all zones** within that region.

Global Access:

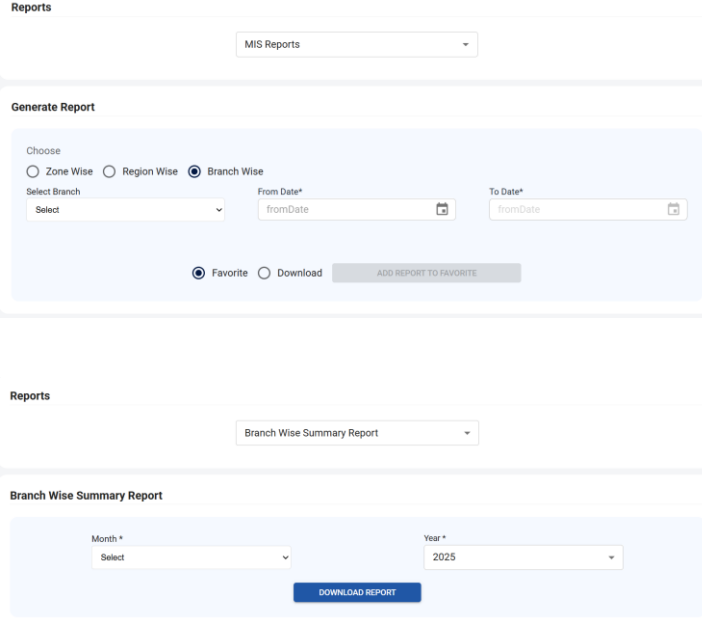

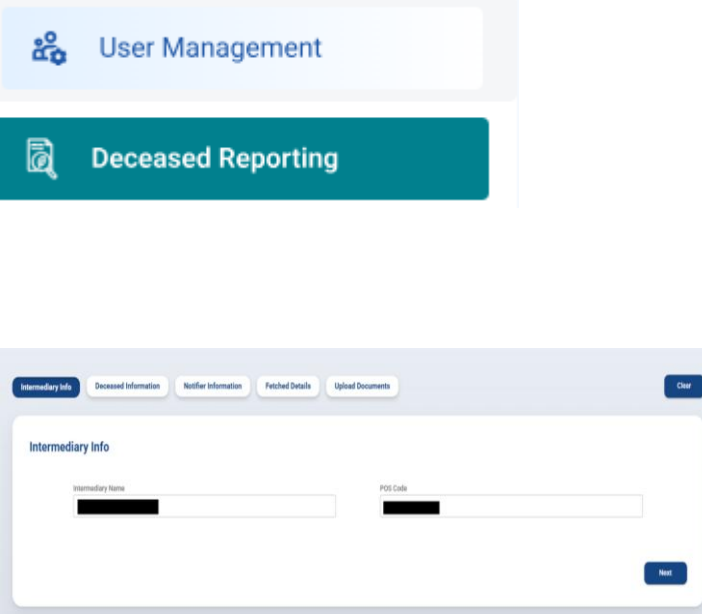

- Users with global access are authorized to generate reports across all regions and zones associated with the intermediary.

Transaction Reports -

- **Transaction Reports** can be generated by selecting **From** and **To Date**.

The screenshot displays the KFIN KRA MIS Report Generation interface. The sidebar menu on the left includes options like 'Assisted Digital KYC', 'Pre-filled KYC - PAN', 'Pre-filled KYC Data Upload', 'Pre-filled KYC - Other Identifier', 'Search PAN - Bulk', 'PAN Search', 'MIS Reports' (highlighted), 'Intermediary Profile', 'Role Management', 'Branch Management', 'User Management', and 'Deceased Reporting'. The main content area shows a 'Branch Wise Summary Report' dropdown menu with options for 'Transaction Report', 'MIS Reports', and 'Branch Wise Summary Report'. Below this, there are input fields for 'Month' and 'Year' (set to 2025) and a 'DOWNLOAD REPORT' button. The 'User Category' section includes radio buttons for 'Employee', 'MFD User', and 'AMC User'. The 'Employee' section has fields for 'Employee Id', 'Employee Name', 'User Id', 'Designation', 'Intermediary Name' (set to ALEK MUTUAL FUNDS), 'User Email Id', 'User Mobile Number', 'Location / Branch', 'User Status' (set to Inactive), 'Role', 'Select Activity', and 'Access Level' (highlighted with a red circle, showing options for 'Select', 'Global', 'Regional', and 'Zonal'). A 'Create User' button is present. The 'Reports' section shows a 'Transaction Report' dropdown menu. The 'Transaction Report' section includes date pickers for 'From Date' and 'To Date' and a 'DOWNLOAD REPORT' button.

Process flow document

 The screenshot shows the 'Reports' section of the application. At the top, there is a dropdown menu labeled 'MIS Reports'. Below it, the 'Generate Report' section is visible. It includes radio buttons for 'Zone Wise', 'Region Wise', and 'Branch Wise' (which is selected). There is a 'Select Branch' dropdown menu, and two date pickers for 'From Date' and 'To Date'. At the bottom of this section, there are radio buttons for 'Favorite' and 'Download', and a button labeled 'ADD REPORT TO FAVORITE'. Below the 'Generate Report' section, there is another 'Reports' dropdown menu showing 'Branch Wise Summary Report'. Underneath, the 'Branch Wise Summary Report' section is displayed. It features a 'Month' dropdown menu (set to 'Select') and a 'Year' dropdown menu (set to '2025'). A blue button labeled 'DOWNLOAD REPORT' is positioned at the bottom of this section.	MIS Reports- • MIS Reports can be generated by the user/admin by selecting the fields given. Branch Wise Summary Report- • Branch Wise Summary Report can be generated by selecting Month and Year.
Deceased Reporting	
 The screenshot shows the 'Deceased Reporting' interface. At the top, there is a menu with two options: 'User Management' (with a gear icon) and 'Deceased Reporting' (with a magnifying glass icon). Below the menu, the 'Deceased Reporting' section is active. It features a tabbed interface with tabs for 'Intermediary Info', 'Deceased Information', 'Notifier Information', 'Fetched Details', and 'Upload Documents'. The 'Intermediary Info' tab is selected, showing two input fields: 'Intermediary Name' and 'POS Code'. Both fields are pre-filled with blacked-out text. A 'Next' button is located at the bottom right of the 'Intermediary Info' section.	• The user can click on Deceased Reporting option from the menu to report any deceased investor. • The Intermediary name and POS code are auto populated in this tab.

KFIN KRA
REDEFINING ID MANAGEMENT

- The User must enter the **details of the deceased** in this tab.

- The User must enter the **details of the notifier** in this tab.

- The User must **verify the fetched details** of the deceased in this tab.

- The user must **upload a compiled document** consisting of - PAN of deceased, Intimation Letter, Notifier's PAN, Notifier's OVD, Death Certificate and Intermediary Verification Confirmation.
- The **start and end page numbers** must be entered next to each document.
